

Single Barrel Program

Buzzard's
ROOST
sipping whiskeys

Single barrel bourbons and rye whiskeys are in high-demand by whiskey enthusiasts! Buzzard's Roost has a turn-key program to make barrel picks fun and easy, so you can offer your customers exclusive bottles not available anywhere else.

Selecting Your Whiskey

- You can come to Bardstown Bourbon Company, where all Buzzard's Roost whiskeys are barrel-aged and bottled, and taste straight from the barrels
- We can meet you at the Buzzard's Roost Whiskey Row Experience in downtown Louisville to taste through up to six whiskeys
- We can come to you with barrel samples of up to six bourbons or rye whiskeys

What Comes Next?

- After you select your single barrel, we'll work with you to design a custom label with your logo for each bottle
- The whiskey will then be bottled with your custom label and will arrive to you within six to eight weeks
- Every barrel pick yields from 210-240 bottles
- If you would like to have the actual barrel in which your whiskey was aged, we can provide that. They make a great display tool; customers love seeing and touching – and often snapping selfies with! – the actual barrel that once housed your exclusive whiskey.
